## Celebrant

✉ [anfragen@straussundfliege.de](mailto:anfragen@straussundfliege.de)

You have decided to say "Yes!" to each other without reservation and to celebrate your commitment to each other with your loved ones. Congratulations. This is wonderful.

I would like to help you discover what your very personal wedding ceremony can look like and how your wishes and expectations for your big day can best be achieved.

I act as your master of ceremonies and will tell the story of your ineffable love in an emotional and humorous speech that expresses who you are as people and as a couple. I will also be a reliable support for you and make sure that your mind is at ease so that you can feel completely present to consciously experience your wedding ceremony and enjoy it to the fullest.

I grew up in Hamburg and moved to Berlin at the end of the 1990s. I then spent many wonderful years performing theatre in East Germany. For years now, I have enjoyed accompanying couples in their desire to commit to each other in front of the entire world. I thoroughly enjoy bringing your families and friends together in German, English, or even bilingually in a cheerful ceremony to share your happiness with them.

Like you, I was very lucky to find a person to whom I wanted to promise to be an honest, understanding and reliable partner with my heart, soul, and mind. Our free wedding ceremony with my family-in-law in Australia was the most beautiful, overwhelming and important day of my life.

So, from a personal as well as from a professional perspective, I have an idea of how you feel now, what is coming to you, what you need and how much joy you will experience.

I am really looking forward to getting to know you and to understanding your personal stories. I will work with you to design every detail of the ceremony of your dreams so that you can celebrate the beginning of this new phase of your life in a way that suits you perfectly.

As your master of ceremonies, I aim to create a unique and warm memory that will live in your heart forever.

Yours Martin
